

Our current economy and its ramification on small business

For our local businesses it certainly means rethinking how to market ourselves wisely and to offer the proper services to customers...

For the consumer, it may certainly mean belt-tightening with budgets and getting the most out of each purchase.

The reason the big conglomerate stores and those cheaper priced businesses are seeing the successes that we wish for is that they are listening to the immediate needs of their customers and always offering the BEST DEALS now.

Tucson Welcome.com is coming to the aid of SMALL LOCAL BUSINESSES WITH THE SAME CONCEPT! Together, we can be a presence in the marketplace for the consumer and business.
